VisionCorps Large-Print 2024 Calendars Available

(LANCASTER, Penna.) Oct. 25, 2023 – VisionCorps has large-print 2024 calendars available now.

The 2024 calendar is 21 ½ x 17 inches, when opened, and each date square is 2 1/4 x 2 ¾ inches. The cover of the calendar is blue tone and the inside calendar pages are in black and white for contrast and the numbers are large and in bold print, making it easier to see.

“Producing large-print calendars is a service we offer each year for clients and others who are blind or vision-impaired,” said Dennis Steiner, president and CEO of VisionCorps. “Many people who have low vision appreciate these calendars and use them to keep track of their activities.”

Calendars are just \$6 to purchase, plus shipping and handling. For more information on how to order a 2024 large-print calendar, please contact Linda at lconyers@visioncorps.net or call 717-205-4116. Calendars will be sent in the mail.
